C++

Education

Eastern Michigan University
B. S. Computer Science

3.67 GPA
Expected April, 2018

Jackson County Intermediate School District
Computer Programming 2014

Career center that gave me specialized education in basic programming, web design, and mobile software development.

Projects

Blooming Garden Jan 2017

www.devpost.com/software/blooming-garden

First place submission to SpartaHack 2017.

Automated miniature home garden that gathered data from Arduino sensors and webcams to optimize growth using machine learning.

Adjust water pump and lighting from anywhere using Amazon Alexa, webserver, or X-keys Input.

Software: PHP, Python, NodeJs, Java, Javascript.

Hardware: Arduino sensors and motor, rotating-arm attached to water pump, raspberry pis, webcams, heat lamp, X-keys programmable keyboard.

Personal Website Jan 2016 to Current

www.github.com/khalob/khalob.github.io

Bootstrap-based website to host projects I have worked on.

Custom animations and completely mobile friendly.

Used: Bootstrap, Javascript, CSS3.

Eastern Dining Service Menu Proposal Dec 2016

www.devpost.com/software/emu-dining-menu

Observed problems with EMU's original food menu website.

Displayed data in a more clear, understanding way.

Redesigned to be mobile friendly, implemented a five star rating and commenting system.

Used: Bootstrap, PHP, CSS3, Javascript, OAuth.

Awards

HackEastern · 2nd Place Dec 2016
